Imperative for Action

Total government spending on older Americans will comprise 50% of all noninterest costs in just 10 years.

Chronic Disease ↔ Oral Health

Extensive research shows the association of oral and chronic conditions.

Substantial Savings Are Possible

Treating Gum Disease Reduces Hospital Admissions

Significant decreases in annual hospitalizations are possible when individuals with certain chronic diseases received dental treatment for their gum disease, after accounting for the effect of diabetes.

The Keys to Coverage

Science

Extraordinary and growing body of evidence.

Savings

Billions of dollars in potential cost reduction.

Strength

Large and expanding community of supporters.

Surround!

Media, Hill support, grassroots, and an all-out push.
